

1810.14 Environmental Requirements

Issued February 1, 2008

SUBJECT: Environmental Requirements

APPLICATION: Executive Branch Departments and Sub-units.

PURPOSE: Assure that all projects are conducted in a manner that prevent impacts to public health or the environment and in accordance with environmental law.

CONTACT AGENCY: Department of Environmental Quality (DEQ), Environmental Assistance Program.

TELEPHONE: 800/662-9278

FAX: 517/241-0673

SUMMARY: Provisions of the Natural Resources and Environmental Protection Act, PA 451 of 1994, as amended require environmental protection activities including waste management and remediation be conducted in a manner to protect the public health and the environment. The Environmental Assistance Program consists of professionals from the air, land, remediation, waste, and water programs who are ready to answer your questions on state and federal environmental regulations.

APPLICABLE FORMS: [Michigan Manufacturer's Self Assessment Survey](#)

PROCEDURES: Review applicable sections of the [Michigan Manufacturer's Guide to Environmental, Health and Safety Regulations](#), which is applicable to most operations conducted by Executive Branch Departments and Sub-units. This document can be used as a reference to assist in environmental regulatory procedures and information and its Self Assessment Survey can help identify applicable requirements. Follow-up questions and assistance can be obtained through the Environmental Assistance Program.
